

2020-2021 Fourth Grade Supply Letter

This year I will be purchasing and streamlining our crew supplies to ensure students will have what is needed for distance learning and when we return to campus. Most of our classroom supplies will be purchased in bulk or through a specialty supplier, therefore **each student is asked to contribute \$50.00** toward the cost of supplies. Please make checks payable to La Tierra Community School and turn into the office by August 14, 2020 when you come to pick up supplies and classwork for the first week of school. We understand this may pose a financial burden to some families, if this is the case for you contact the office as soon as possible so accommodations can be arranged.

Students will have binders, with dividers, to organize their school work. Some other items purchased through this fund include: pencils, erasers, school folders, glue sticks, scissors, rulers and art supplies.

In anticipation of returning to campus, each student will need the following items to bring to school each day. Please clearly label each of these items with your child's name.

- **1 lunch box**
- **1 face covering**
- **1 durable, reusable water bottle** for daily use at school- we do not have a water fountain at school. Water bottles are important to keeping your child hydrated and at their best throughout the day!

Thank you for your contributions to our community!
Please feel free to contact me if you have any questions.

Ms. Barbara
