

2020-2021 Sixth/Seventh Grade Supply Letter

This year I will be purchasing and streamlining our crew supplies to ensure students will have what is needed for distance learning and when we return to campus. Most of our classroom supplies will be purchased in bulk or through a specialty supplier, therefore **each student is asked to contribute \$50.00** toward the cost of supplies. Please make checks payable to La Tierra Community School and turn into the office by August 14, 2020 when you come to pick up supplies and classwork for the first week of school. We understand this may pose a financial burden to some families, if this is the case for you contact the office as soon as possible so accommodations can be arranged.

Thank you for your contributions to our community!

Please feel free to contact me if you have any questions.
