

# ¡Bienvenidos a la Clase de Español! Welcome to Spanish Class!

I am Señora English (or Mrs. English). I am so happy to be joining the La Tierra family!

Years ago, I lived in Chile where I learned to speak Spanish fluently. After returning home, I received my BA degree in Spanish from ASU. While I was in South America and during my studies, I fell in love with the Spanish culture, people and language and I am so excited to share this with your student! I hope your student will develop a love for the Spanish language as I have!

This year our students will increase their Spanish vocabulary and their confidence and ability to communicate with other Spanish speakers. We will learn Spanish through games, music, worksheets and activities to help with memorization. Your student will realize that learning Spanish is fun!

There are many cognitive benefits of learning Spanish. Learning more than one language improves memory, problem solving and critical thinking. It also enhances concentration, listening skills and ability to multitask. Studying Spanish can also improve your child's understanding of English and improve performance in other academic areas. Not only is Spanish awesome, it can benefit us in so many ways!

I am so excited to work with you and your student this year! Please email me if you have any questions or concerns.
